4. Committee members are going to take part in 3 online training sessions, working towards us being a more efficient, visible and accessible community organisation.
 - a. Management: centralising all SC admin & business on Making Music's Platform.
 - b. Social prescribing: this is an NHS scheme where medical services can refer patients to community-based activity to improve their health and well-being.
 - c. Inclusion: offering anyone and everyone the opportunity to create, perform & experience music.
5. Members can support the Chorale by reaching out to others who may benefit from joining, a few extra voices would be good for us. Mentioning SC and spending 60 secs telling someone about our choir could make a positive difference!
6. Looking ahead - Dec concert: we plan to have craft/Christmas stalls to make full use of the facilities we're paying for at the URC.
